Dear Participant,
Assalamu-Alaikum/Adab

This letter is an invitation to consider participating in a study we are conducting on behalf of the Department of Computer Science and Engineering under Daffodil International University (DIU).

Aim: The aim of this study is to collect medical data related to blood parameters in order to develop an automated diagnosis and prediction system for anemia. This system will assist in early detection and classification of anemia and related hematological disorders, which can support better clinical decision-making..

Risk: There are no known or anticipated risks to you as a participant in this study. The benefit of your participation is that you will be contributing to the advancement of an automated health screening system that could improve early diagnosis, treatment planning, and public health monitoring of anemia.

Anonymity & Confidentiality: All information you provide will be kept strictly confidential. Your name or any personal identifiers will not appear in any thesis, publication, or report resulting from this study. The data will be anonymized, and only researchers directly involved in this project will have access to it.

Time: Participation will take approximately 5-10 minutes, during which your basic demographic details and recent blood test results will be recorded.

Your rights as research participants: Participation in this study is voluntary. You have the right not to participate or leave the study at any time. You may decline to answer any of the interview questions if you so wish.

Compensation & Payment: There are no costs to you for your participation in this study. There is no monetary compensation to you for your participation in this study.

Data type: We will collect Complete Blood Count (CBC) test results and relevant medical history information, such as: • **CBC Report** • **Age** • **Gender** • • **Relevant health and lifestyle history: previous anemia diagnosis, family history of anemia, substance use.**

Diseases: This study focuses on anemia and related hematological profiles. Participants will be classified into categories such as: • **Anemic** • **Threatened Anemic** • **Not Anemic**

Study query: If you have any questions regarding the questionnaire of this study or would like additional information to assist you in reaching a decision about participation, please feel free to ask me.

Future use of Information:

We are assuring that the data of this study will be used only for research.

Participants consent:

All of my questions and concerns about this study have been addressed. I choose, voluntarily, to participate in this research project. My willingly placed signature below as evidence of my acceptance of all the conditions contained herein.

Signature of the participant

Md. Hasan Imam Bijoy

Thank you very much for your help and cooperation.

Section-A

Socio-Demographic Information

SL No.	Questions	Categories
1.1	How old are you?	 years months
1.2	What is your gender?	☐ Male Female ☐ Others (Please specify)
1.3	Do you have a previous encounter with Anemia	☐ Yes ☐ No
1.4	Do any of your family members have a previous encounter with Anemia	☐ Yes ☐ No
1.5	Do you use any substance to cope with Addiction?	☐ Yes ☐ No
1.7	What result doctor diagnose you with?	☐ Anemic ☐ Threatened Anemic ☐ Not Anemic

**Signature of the
 respondent**

**Name & Signature of
 the Collector**

**Signature of the
 field supervisor**

Thank you very much for your help and cooperation.
